## 1 Audacity håndbok

Dette er en håndbok for Audacity, basert på versjonen 1.2.4b-2.1+b1 fra Debian Edu Etch 3.0.

Versjonen på <http://wiki.debian.org/DebianEdu/Documentation/Manuals/Audacity> er en Wiki og oppdateres regelmessig.

**Oversettelser** er en del av pakkendebian-edu-doc, som kan installeres på en webtjener og er tilgjengelig på nettet.

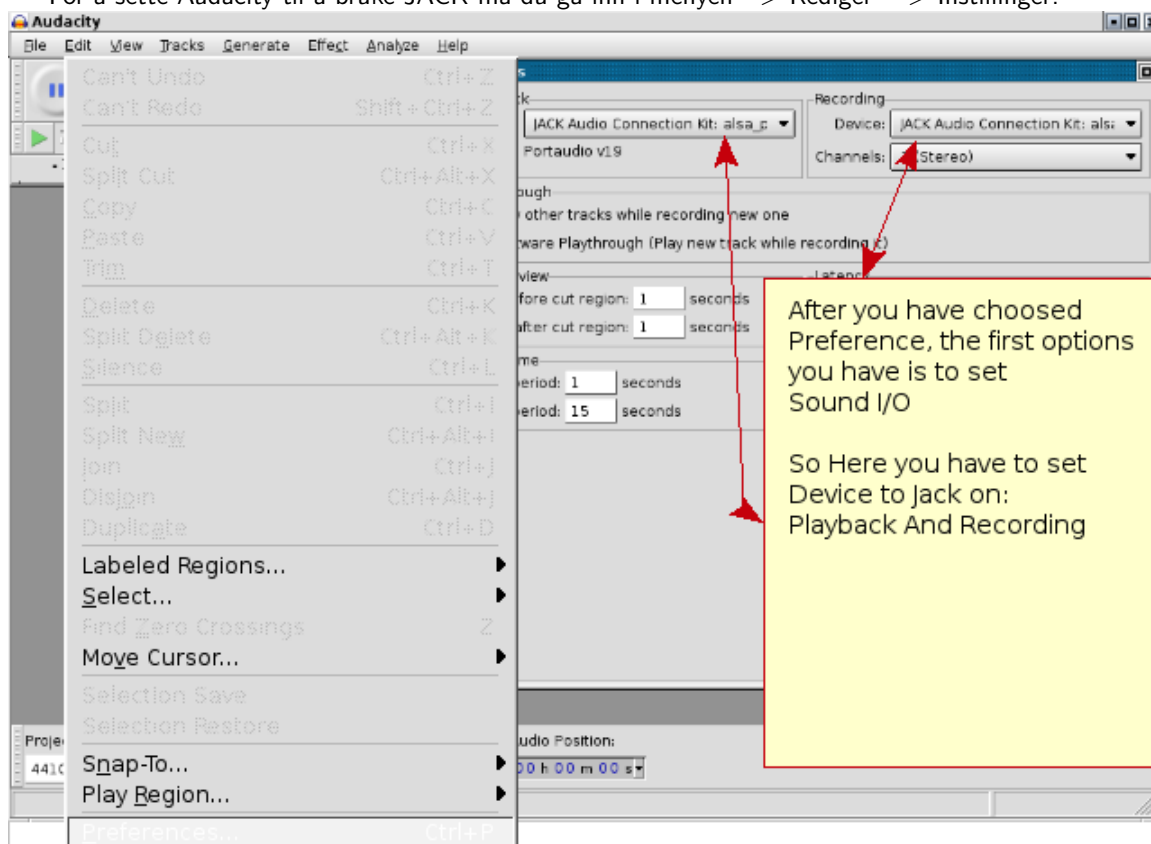

## 2 Før du begynner

Å sette opp Audacity er ikke vanskelig hvis du husker å sette opp Audacity til å bruke JACK, for å gjøre det mulig for andre program å bruke lyd samtidig. Hvordan sette opp Jack til å virke sømløst? Oppskriften er her:

<http://wiki.debian.org/DebianEdu/Documentation/Manuals/Rosegarden/Setup>

Jeg brukte Audacity 1.3.3-Beta da jeg lagde denne dokumentasjonen.

For å sette Audacity til å bruke JACK må du gå inn i menyen --> Rediger ---> Instillinger.

Det neste du må være klar over er at prosjektraten må være den samme som sampleringen (samplingsraten) du har satt i JACK.

## 2.1 Innstikk

Det er noen innstikk du antageligvis vil ha:

<b>** Lyddinnstikkmoduler **</b>
swh-plugins
mcp-plugins
terminatorx

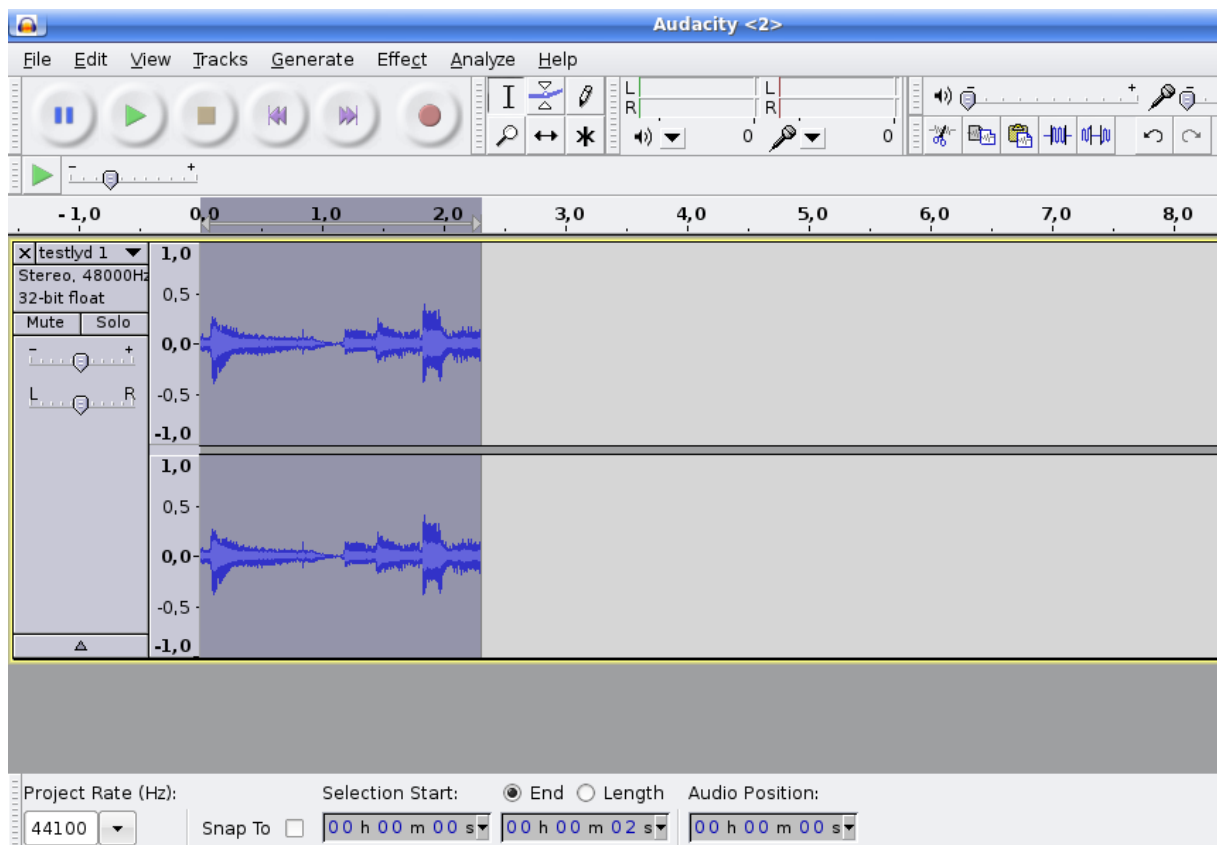

Fiksmeg: legg til noen lyd-instikk du har erfaring med.  
Nå er du klar til å gjøre opptak.

## 2.2 Hvor finner jeg Audacity

Du kan installere Audacity med aptitude, og du kan også se prosjektets hjemmeside <http://audacity.sourceforge.net/>

## 3 Å gjøre opptak

Det første du må huske når du gjør opptak, er at opptakets voluminstillinger ikke er satt for høyt. Det er bedre å ha volumet for lavt enn for høyt.

Når du har tatt opp det du ønsker, kan du normalisere opptaket slik at volumet blir korrekt uten fare for at lyden blir klippet.

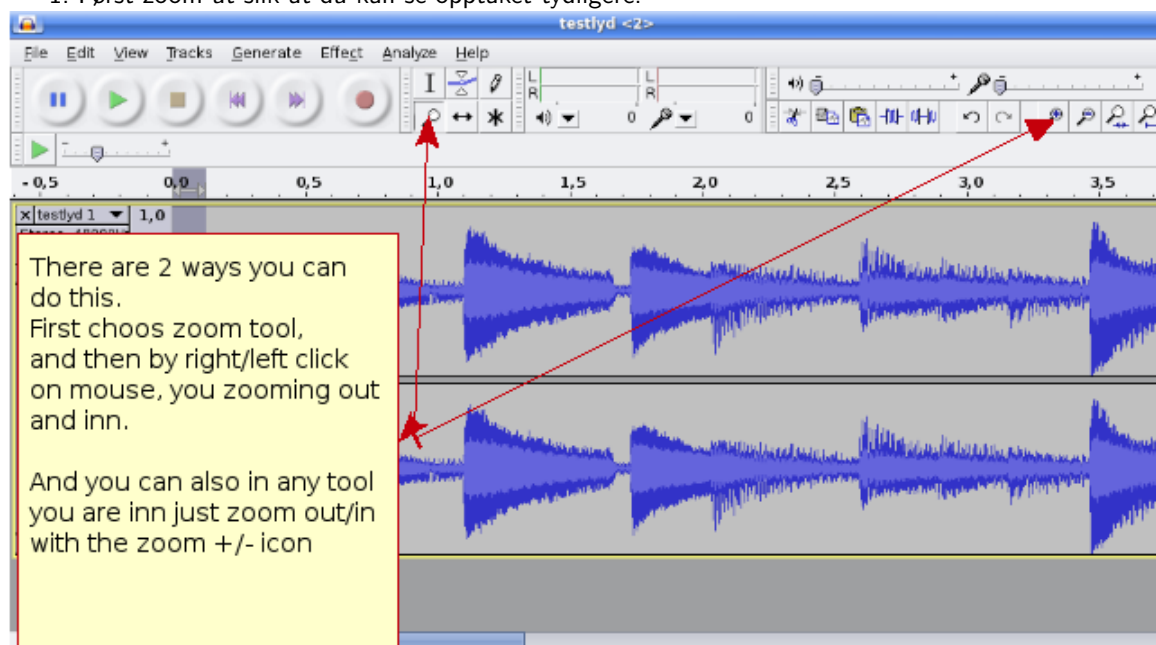

Etter du har normalisert opptaket, ser det slik ut:

Nå er volumet på denne biten av opptaket korrekt. Dette er en bedre måte å passe på at opptaket du har gjort, ikke blir klippet.

Nå vil vi fjerne støy fra opptaket, for eksempel «bakgrunnsstøy» fra mikrofonen. Første steg er å lage en «støyprofil» av hva du vil fjerne fra opptaket.

1. Først zoom ut slik at du kan se opptaket tydeligere.

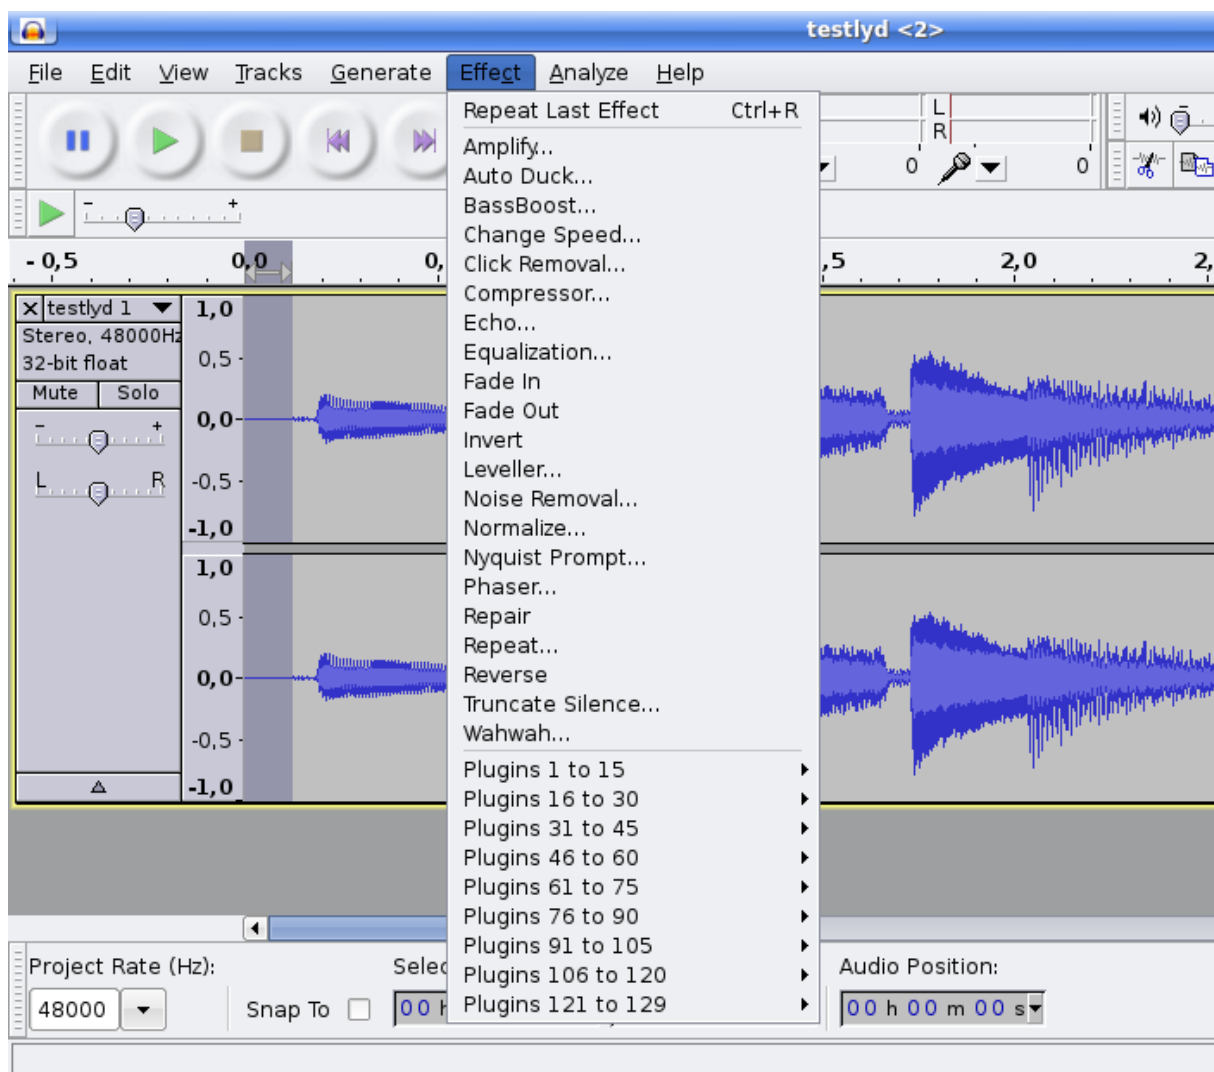

2. Deretter marker hva du vil lage en profil av. Klikk og hold ned venstre museknapp mens du drar. Marker området du trenger å få en profil av.

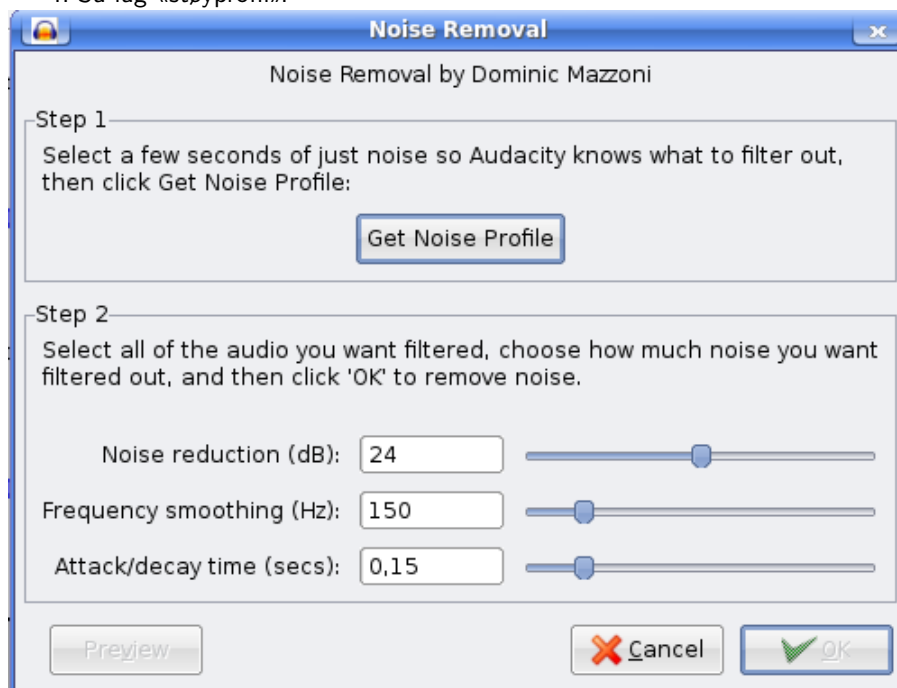

3. Deretter velg at du vil bruke Støyfjerning.

4. Så lag «støyprofil».

5. Velg så hele opptaket ved å klikke Ctrl + A, og velg Støyfjerning igjen fra menyen, men denne gangen trykk OK.

Hvis du ønsker å legge til gjenklang og andre effekter, så søker du bare i den store menyen som er tilgjengelig etter du installerte innstillingene som ble anbefalt.

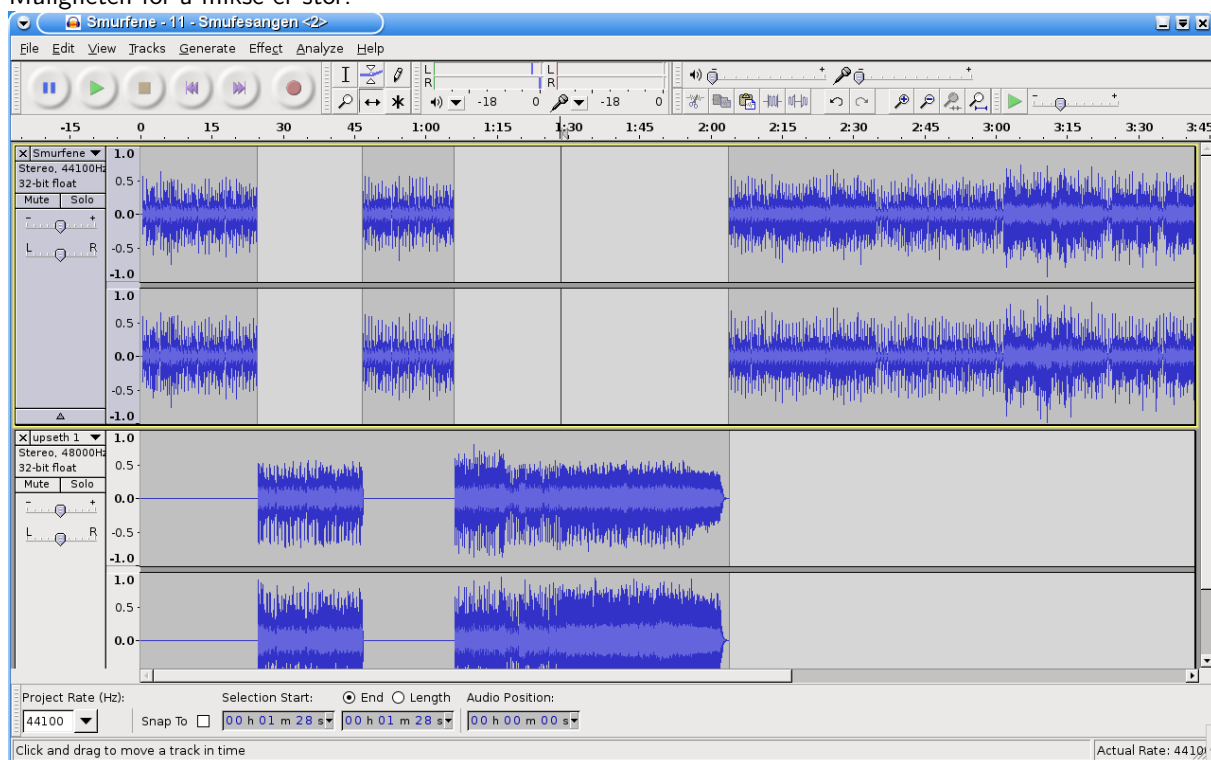

Du har flere måter å eksportere det ferdig resultatet på. Du kan eksportere som WAV, AIFF, MP3, Ogg, FLAC, bare velg Eksporter i Fil-menyen.

## 4 Importere lyd

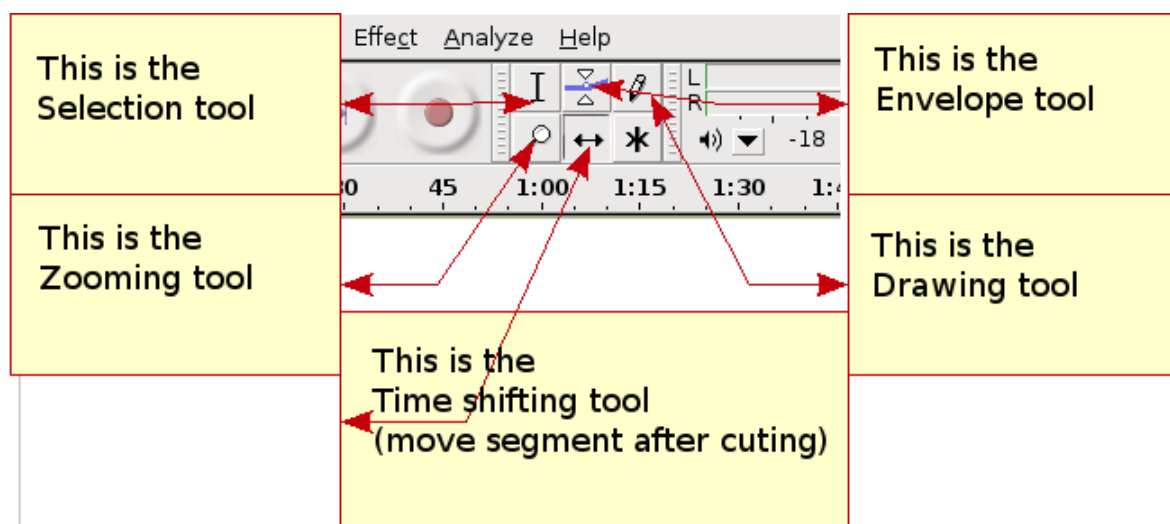

Med Audacity kan du importere lyd av typen Audio, Midi, Labels, og Raw Data. Du kan importere MP3-filer direkte inn i prosjektet, og mikse sammen forskjellige sanger i Audacity.

Her er et eksempel:

Først hovedsangen min «smurfesangen», og så kan du importere for miksing en sang til. Bare velg den i menyen > > Fil > > Importer Lyd, så vil det importerte lydsporet komme under det første lydsporet. Muligheten for å mikse er stor.

## 5 Verktøyseksjon

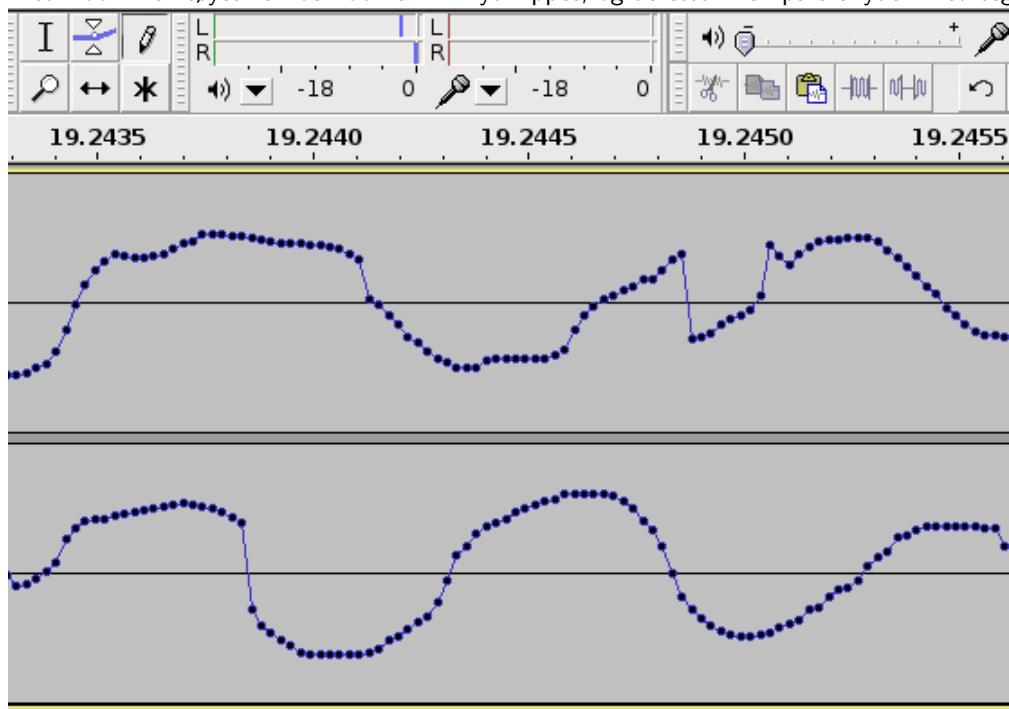

### 5.1 Utvalgsverktøy

For å splitte lyden slik at du kan flytte deler av den, må du først bruke utvalgsverktøyet, og velge hvor du vil kutte det. Bruk Ctrl + I for å splitte, og deretter kan du flytte delen med tidsskiftsverktøyet.

### 5.2 Zoom-verktøy

Med Zoom-verktøyet kan du zoome inn i lydklippet, og deretter manipulere lyden med tegneverktøyet.

### 5.3 Envelope-verktøy

Med Envelope-verktøyet kan du manipulere volumet ved å senke eller heve volumet hvor du er i klippet.

## 5.4 Tidsskiftsverktøy

Med dette kan du flytte lydklipp rundt.

# 6 Opphavsrett og forfattere

Dette dokumentet er skrevet av og opphavsretten innehas av Alf Tonny Bätz (2008, 2009), og Holger Levsen (2008), og er gitt ut med lisensen GPL2 eller en senere versjon. Nyt det!

Hvis du legger til innhold til denne, **vær så snill å kun gjøre dette hvis du er forfatteren av innholdet og planlegger å gi det ut under de samme vilkårene!** Legg så navnet ditt til her, og lisensier innholdet i henhold til GPL v2 eller enhver senere versjon av lisensen.

# 7 Opphavsrett for oversettere

Rettighetene for oversettelsen til norsk bokmål tilhører Jon Nordby (2014) og Petter Reinholdtsen (2014), og er utgitt under GPL v2 eller en senere versjon.

Rettighetene for den franske oversettelsen tilhører Christophe Masson (2008), Olivier Vitrat (2010), Cédric Boutillier (2012), Jean-Paul Guilloneau (2012), David Prévot (2012), Thomas Vincent (2012) og det franske l10n teamet (2009, 2010, 2012), og er utgitt under GPL v2 eller en senere versjon.

Rettighetene for den nederlandske oversettelsen tilhører Frans Spiesschaert (2014).

## 8 Oversettelser av dette dokumentet

Ferdig oversatte versjoner av dette dokumentet for fransk og nederlandsk er tilgjengelig. Ufullstendige oversettelser for norsk bokmål finnes. Dette er en [online oversikt over alle språk](#).

### 8.1 Hvordan oversette dette dokumentet

Som med mange friprog-prosjekter, er oversettelsen av dokumentet lagret som PO-filer. Mer informasjon om oversettingen finner du i filen `usr/share/doc/debian-edu-doc-en/README.audacity-manual-translations`. Git-kodelageret (se under) har også lagret denne filen. Ta en titt der og på de [språkspesifikke konvensjonene](#) om du ønsker å hjelpe til med å oversette dette dokumentet.

For å bidra med oversettelser så må du være medlem av Alioth-prosjektet `debian-edu`. Om brukernavnet i Alioth er forskjellig fra det du har på datamaskinen du bruker, lag eller rediger filen `~/.ssh/config`. Den bør inneholde en linje som denne:

```
Vert git.debian.org
Bruker <your-alioth-username>
```

Sjekk kilden `debian-edu-doc` med å bruke SSH-tilgang: `git clone git+ssh://git.debian.org/git/debian-edu/debian-edu-doc.git`

Hvis du bare ønsker å oversette, trenger du bare å sjekke ut noen filer fra Git (som kan gjøres anonymt) og lage patcher. Send inn en feilrapport mot `debian-edu-doc`, og legg ved PO-filen til [feilrapporten](#). Du kan finne noen [instruksjoner om hvordan du sender bugs](#) her.

Du kan hente ut kilden for `debian-edu-doc` anonymt med denne kommandoen (du må ha pakken `git` installert for at dette skal fungere):

- `git clone git://anonscm.debian.org/debian-edu/debian-edu-doc.git`

Så redigerer du `documentation/audacity/audacity-manual.$CC.po` (der du bytter ut `$CC` med språkkoden din). Det er mange verktøy tilgjengelig for å oversette, vi foreslår at du bruker `lokalize`.

Så kan du enten melde filen inn direkte til SVN (hvis du har rettigheter til det), eller sende filen til e-postlisten. (Deretter kan du enten melde filen direkte til Git (hvis du har rettighetene til å gjøre det), eller sende filen til feilrapport (bugreport).)

For å oppdatere din lokale kopi av arkivet kan du bruke denne kommandoen inne i mappen `debian-edu-doc`:

- `git pull`

Les `/usr/share/doc/debian-edu-doc/README.audacity-manual-translation` for å finne informasjon om hvordan lage en ny PO-fil for ditt språk hvis det ikke finnes allerede, og hvordan oppdatere oversettelser.

Vær spesielt oppmerksom på at denne håndboken fortsatt er under utvikling, så ikke oversett noen tekst (tekststreng) som inneholder "FIXME".

Elementær informasjon om Alioth (verten for vårt SVN-pakkelager) og SVN er tilgjengelig på <http://wiki.debian.org/Alioth/Git>. (Grunnleggende informasjon om Alioth (verten for vårt Git pakkelager er lokalisert) og Git er tilgjengelig på <http://wiki.debian.org/Alioth/Git>.)

Hvis du er ny når det gjelder Git, sjekk ut boken [Pro Git](#), som har et kapittel om [å sende inn endringer i kodelageret](#). Det kan også være lurt å se på pakken `gitk` som gir et GUI for Git.

Meld fra om eventuelle problemer.

## 9 Vedlegg A - Den offentlige GNU-lisensen

Notat til oversettere: Det er ikke nødvendig å oversette GPL lisensteksten.

### 9.1 Audacity håndbok

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

## 9.2 GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA. Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

## 9.3 TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

**0.** This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

**1.** You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

**2.** You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- **a)** You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- **b)** You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- **c)** If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

**3.** You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- **a)** Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b)** Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c)** Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

**4.** You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

**5.** You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

**6.** Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

**7.** If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### **NO WARRANTY**

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### **END OF TERMS AND CONDITIONS**
